

**Report to the Somerset Primary Care Commissioning Committee Meeting on 17 September 2020**

<b>Title: Primary Care Strategy Update</b>	<b>Enclosure E, Ei</b>
--	----------------------------

Version Number / Status:	1.0
Executive Lead	Alison Henly, Director of Finance, Performance and Contracting
Clinical Lead:	Dr Emma Keane, Associate Clinical Director of Primary Care
Author:	Michael Bainbridge, Associate Director of Primary Care

**Summary and Purpose of Paper**

Before Covid-19, the Somerset Primary Care Commissioning Committee was overseeing the development of a new primary care strategy for Somerset to follow on from The Somerset Primary Care Plan 2016-2019. This work was almost complete but has been overtaken by our Covid-19 response and our need to plan for the remainder of 2019/20 in the context of the national Phase 3 requirements.

The Somerset Primary Care Commissioning Committee is asked to review the attached presentation which has already been reviewed by the Restoration Cell and by the Integrated Care System Executive. The Somerset Primary Care Commissioning Committee is asked to support the approach described as part of the Phase 3 plans.

**Recommendations and next steps**

The Somerset Primary Care Commissioning Committee is asked to approve the approach described.

**Impact Assessments – key issues identified**

<b>Equality</b>	Impact assessment in hand and to be completed as part of implementation.			
<b>Quality</b>	No adverse impact on quality.			
<b>Privacy</b>	No information sharing requirements beyond existing norms.			
<b>Engagement</b>	Level 3 Incident command and control applies; however we have engaged with patients via the PPG network 'virtual coffee morning' and with providers via the Primary Care Cell.			
<b>Financial / Resource</b>	All resource impacts are within the agreed financial framework			
<b>Governance or Legal</b>	No constitutional, legal impacts or conflicts of interest that are being addressed by the paper			
<b>Risk Description</b>	N/A			
<b>Risk Rating</b>	Consequence	Likelihood	RAG Rating	GBAF Ref
